

## Take My Hand Lord

-Rachel Ford-

Take my Hand Lord  
Lead me into your arms  
Keep me safe from harm and pain  
Don't let me walk too slow or run too fast  
Hold me close for me to feel your breath

Take my Hand Lord  
Usher me into your Throne Room  
Breathe fresh breath into my empty and thirsty heart  
Allow me to find you and love you.

Take my Hand Lord  
Unveil the plans you have laid upon my life  
Help me to become patient and rest  
Let me run to your safety and find security  
And be at peace there

Take my Hand Lord  
Become water to my desperate soul  
Open my ears to receive your soft whispers  
Help me to be silent and wait

Take my Hand Lord  
Rescue me from my hiding place  
Walk with me forever and never stray  
Carry me when I am too weak to walk  
Continue to be my strength and my refuge

Be the everlasting cup that over flows within my soul

Take my Hand Lord

Lead me deeper into your heart

Flood my soul, mind, and heart with thought of you

Let my worship be praise to your name

And become more than just words allow it to become intimate

Take my Hand Lord

Let your voice be my refuge

Your hands be my strength

Your words be sweet honey to my lips

Your heart become my escape

Your feet guide me along your path

So take my hand Lord

Never let me go

I give the (drumsticks) back to you

Continue to be my Father
